MOBILE SECURITY TOWERS
 C-WATCH 180° & C-WATCH 360°

- Top quality camera system (Axis) with razor-sharp image quality, consisting of 5 cameras (4x 5MP + 1x PTZ 2MP)
- The wide camera range will maximise the security area setting, subsequently requiring fewer towers than comparable products
- KIWA 3 certification regularly results in a reduction in insurance premiums
- Can be set up within 15 minutes, operational within maximum 2 hours
- Adjustment by certified employees in accordance with the GDPR regulations
- Equipped with green LED lighting
- Equipped with a loudspeaker (audio), can be remotely controlled by app
- Real-time images by app, continuously and with the possibility of re-viewing images
- Notification in case of sabotage and power failure
- Long-term autonomous operation in the event of a power failure
- The camera is standard equipped with 2 information banners, 4 stamping plates, a connection cable (230V) and a padlock
- Optional: collaboration with a control room (PAC1)

Rental No.
 C-WATCH 180°: 571018
 C-WATCH 360°: 571036

i These security towers are also available to purchase in the Benelux and Germany. For more information, please contact our sales department via sales@colle.eu

CAMERAS
 SUPERIOR IMAGE QUALITY

Our cameras will help you to secure every corner of your construction site, making sure no suspicious circumstances are overlooked and a (potential) situation can quickly be reported on.

- Can be combined with a lighting tower
- Images can be monitored by app
- Multiple cameras can be wirelessly connected
- Plug & Play: easy to set up

Rental No.
 572100

WIRELESS TRACKING UNIT
 GPS POSITIONING

Always want to know where your machines and equipment are? A GPS location is transmitted thanks to this smart wireless tracking unit with powerful sensors.

- Accurate location determination of your machines and equipment
- Traceable by app
- Easy to apply

Rental No.
 576060

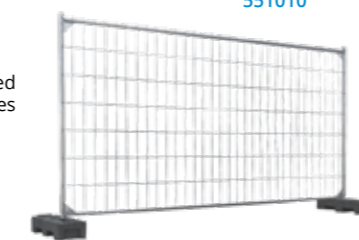

SMART SECURITY SOLUTIONS

FENCING / CROWD CONTROL
 SHIELDING YOUR LOCATION

Our construction fences will allow you to easily ensure unauthorised people can't enter your site and that your equipment and machines are safe.

- Can be installed by Collé if required
- Can be combined with construction fence banners (this location is secured)

Rental No.
 551010

SECURITY BAR (CONNECTED TO A CONTROL ROOM)
 SECURITY THROUGH MOTION DETECTION

An alarm is automatically triggered by motion detection. The control room will be notified when the alarm is triggered. This will result in a mobile surveillance team being on site within 15 minutes.

- Flexible to set up and move
- Simple, but very effective

Rental No.
 576055

YOUR LOCATION SECURED 24/7

You will reduce the risk of damage due to vandalism or (attempted) burglary if your project's security is continuously in order. Our **top quality camera systems (Axis)** will ensure every corner of your construction site or area is secured. Collé will protect your construction site and event location throughout the day and night, from access control to camera surveillance. We provide 24/7 security for your location, machines and equipment, ensuring that unauthorised persons will not have access to the site and suspicious situations will not be overlooked.

COST EFFECTIVE & EFFICIENT

The equipment and services provided by Collé Security Services can prevent theft, vandalism and destruction. In addition to the direct and indirect cost savings related to these unwanted activities, you will also be able to avoid any costs resulting from consequential damage, such as delays in your construction project. The number of **false reports will be reduced** because of our camera system, resulting in lower call-out costs. Additionally, the KIWA 3 certification can even have a positive impact on insurance premiums, resulting in a reduced deductible excess.

EXTENSIVE SECURITY OFFER

Collé is a **full-service supplier** of all required equipment and services for protecting equipment and people during a construction project or events. Collé Security Services offers an extensive range of security services, including mobile security tower, camera systems, motion detection and tracking devices for machines and equipment, as well as a detailed security plan for large construction sites.

PROFESSIONAL ADVICE FOR ALL YOUR SECURITY ISSUES

Collé offers its customers expert advice in the field of planning, installation, dismantling and service. Our experienced advisors can put together a cost effective security plan for you, perfectly matching your needs and wishes. Tailor-made advice, from the security plan design, the delivery of the equipment, right through to the implementation and installation on site.
